The Principals Desk

Its exams time, once more and we're progressing very well, both the staff members and learners doing their best to see the year through. However, the spirit, vim & vigor with which we started the year is somewhat dwindling as the output from some subjects tending to discourage some of us; particularly with the progressed learners from grades 8-11.

At the same time we will continue holding our heads high and ensure that we either keep to the 70%-80% pass rate overall or improve to the 90%-100% pass rate. This is doable judging by our previous records and performances.

Trusting for the best.
