## Helping hand foundation

Helping hand foundations is a youth led organization which aims to address social issues in rural schools. This organization emanates from an idea of ensuring that school learners are not academically affected by their poor backgrounds and lack of resources.

Helping hands want to bridge the gap of ensuring those challenges that hinder learners in excelling are dealt with.

They want to ensure a brighter future to all learners by offering a helping hand to those in need, empowering them for inclusive education.

We want to thank helping hand for donating school uniforms to learners at our school.
