Grade 12 farewell and motivation

6 August 2021

We celebrated our grade 12 farewell with a lunch and motivational speakers from different organisations in the Eastern Cape. We used the event to celebrate all achievements by our grade 12 learners this year.

Sifunda Kunye project manager Zander Hampson did a motivational speech for our partner school Toise SSS.

Life is full of challenges, Nothing is impossible and anything is achievable if you change your perspective, your dreams are possible through a positive perspective and a positive attitude.

Mr Hampson did a visual demonstration with the grade 12 class, to demonstrate, anything is possible even your dreams if you change your perspective.

Wishing the class of 2021 good luck for the upcoming trial examinations.

Debating 2021

15 September 2021

Twenty schools was identified by beyond zero in conjunction with the department of education to take part in debating coemption held on the 13th of September 2021.

All schools that participated Toise SSS won the debating at district level and will now debate at provisional levle .

The five school competing against each other at provisional level:

- 1.Philip Mtywaku -Bullying (Opposition)
- 2.Hoho -Bullying (Proposition)
- 3.Dumalisile -Pregnancy (Proposition)
- 4.Toise -Pregnancy (Opposition)
- 5.Imiqhayi -SRH (Proposition)
- 6.Philip Mtywaku- SRH (Opposition)

The debating team would like to thank Ms Mbusi for her active rol in coaching our coaching our debating team.

Lab Facilitator

21 September 2021

Thandile Mazukwe is our Sifunda Kunye lab facilitator at our school for the past three years. Thandile works as a volunteer for all Sifunda Kunye schools when it comes to The Presidents Awards and have supported hundreds of learners from all schools to complete levels in this program.

During his free time Thandile runs a NPO rugby team the dragons, and he has helped many young rugby players achieve goals and further their education.

Thandile worked hard and was able to receive funding from the National Lottery to buy new jerseys and rugby equipment.

Thandile thank you for the work you do for our youth, thank you for believing in pushing our youth and guiding them both in the computer lab and the sport field.

FRIDAY 17 SEPTEMBER 2021 THE BUGLE 11

Local rugby club benefits from SA National Lottery

provers through SANL." new assets, and motivated the executive and players to appreciate it. "This is awesome, you look stunning and I can see the abundance of smiles on your faces but you have to treasure it, look after it and appreciate it as it will assist the club tremendously in going forward," said Ngwenya.

She then turns her topic to the players where she encouraged them to have respect, to be disciplined and to concentrate on their education as well. "Respect your parents, respect your coaches, executive and teammates and always remember to be disciplined that is on the field as well as off the field as respect goes a long way. Education is the key to success, so study and do not only focus on your sporting code as it is a short term career," said Ngwenya.

Thandile Mazukwe is the team manager and was also ecstatic about the contribution made possible by SANL. "This donation is really awesome, much-needed and it will uplift the spirit of everyone in the club," said Thandile, adding they are indeed grateful for the contribution of SANL. Club head coach Thandile Mazukwe echoed his team manager's sentiments that the contribution will indeed uplift the spirit of everyone and most especially the players. "I think this contribution will open many more doors and opportunities in the future as well as to attract more players to the club," said Mazukwe. BOM Sports Council 3rd vice president Nomusa Ngwenya during her speech congratulated the club on the generous contribution to the club was made possible by the SANL. Mazukwe said as a club they applied for funding to SANL last year and have been waited for about five months before they received a response to open a bank account which they did. "SANL issued a voucher to the tune of R145 000 and instructed us to spend it wisely on purchasing equipment, balls, kit and sanitiser to mention just a few," Mazukwe said. "We also bought another set of rugby jerseys, trackuits, golf shirts and first aid kits and it feels like a dream coming true for us." "This is a great day, I feel the attendance. I am in the moon and the club will also treasure this day that the Lord has answered our prayers through SANL."

The Zwellisha Development Rugby Club has benefited immensely after becoming the recipients of a kind and generous donation from the South African National Lottery (SANL) last week. There was excitement, joy and happiness as players and members of the club displayed their new equipment, sanitiser and trackuits with sport bags at the Zwellisha Park over the weekend. A special occasion was held where club executives, members, coaches, players and parents with members of the Buffalo City Metropolitan Sports Council also in attendance.

Club chairperson Magloza Lennor Mazukwe said the

Sifunda Kunye computer lab at our school follows a caps aligned software program Cami. The program helps learners with English and mathematical skills.

The lab is also fully equipped with the internet that provides learners with the opportunity to access the internet for research, application to university and much more. Toise SSS are lucky to be connected to a fully functional lab, the lab assist our learners to connected to the outside world as many rural school in South Africa does not have the same opportunity.

Sifunda Kunye computer lab that is fully supported by full time Sifunda Kunye employees. Our computer lab creates great opportunity of computer literacy and assistance to many learners.

The use of technology is extremely important in todays life and our teachers and faculty is grateful to be one of the partner schools of Sifunda Kunye.

11 October to 22 October	Visual Arts and Design Practical

Exam prep tips

Final Exam Prep Tips The key here is to **start planning early**. If you know you have multiple tests or big assignments coming up one right after the other, try to **start well in advance**, ideally 10-14 days before. 10-14 days before: ● **Review previous exam** and analyze mistakes ● **Make list of topics** that will be on exams ● **Organize your notes** by topic ● Gather study materials and begin creation of study guides . Plan study time in your calendar/planner (taking practice tests, when to study for each subject) 7-8 days before: ● Finalize study guides so you can begin using them to better understand the material. ● Review your planner and your planned study time; if there are any changes to your schedule or you feel like you need more time for a particular topic, adjust accordingly. ● Review notes thoroughly and deliberately; don't just read through them, explain them aloud to yourself (or a peer), and/or re-write them down without looking – familiarity doesn't equal comprehension. ● **Do practice problems**, like homework problems or study questions, and/or outline any answers to potential essay questions. ● Write down any questions or ideas you're unsure about; : ● Create questions from your notes to quiz yourself ○ Developing your own practice test helps you think about what kind of questions your professor will ask ● Use mnemonic devices or visual aids ● **Study in chunks (groups) if possible** – 2 hour blocks with 15 minute breaks is recommended 3-4 days before: ● **Take a practice test** with the same time and material constraints as the real thing; work in a quiet place with no distractions, time yourself, and simulate real test conditions as accurately as possible ● **Correct and understand your mistakes**, ● For multiple exams, stagger the practice tests throughout the day or within a day of each other so you're not taking one right after the other 1-2 days before: ● **Continue to review your study materials**; test yourself using your study guides and practice any challenging problems until you grasp the concept ○ Target your weakest areas, **don't waste time** on things you already know ● **Take deep breaths** from your stomach and a swig of water before you sit down. ● **Brain dump bits** of general information that will help throughout the exam ○ Example: equations, mnemonic devices, key definitions, etc. Some general tips for increased success: ● If your exams are on different days, give yourself a little time to relax after the first before you begin the final prep for the next. ● When studying for finals, it is crucial to get a **good amount of sleep and to eat well** – you will retain information better while studying and be able to recall information quicker during the exam and your brain will thank you ● **Believe in yourself** - you've prepared hard and are ready to tackle these tests.
